The research may involve the construction or testing of a model or framework, action research, testing of data, market research or surveys, empirical, scientific or clinical research. Comparative studies are encouraged. Contributions of this type must state contribution of research to body of knowledge or practice.

III. CLASSIFICATION

This website is very effective. Main advantage of this project all problem of traveler are solved. Tourism as a temporary departure of citizens and stateless persons in their are free time with a permanent residence in the health, educational, professional, sports, religious, business, educational and other purposes for a period of not less than 24 hours and no more than 6 months and not in paid work in temporary accommodation.

The most important feature that defines tourist movements - free time man. Under the free time to be understood in tourism vacation, holidays, weekends and holidays, the time after retirement. The second most important feature of tourism - the purpose of travel. The definitions of this objectives are clearly identified a health, educational, professional, sports, religious, business, educational.

Especially trips to the beginning of the 21 century. A primitive means of transportation, travel was not an end in itself but a necessary condition to achieve their goals: trade businesses, expanding educational horizons, treatment, and pilgrimage.

So, using this website you can reach your particular goal easily.

IV. ANALYSIS

The user use website anywhere. We use this website for online booking of hotel, vehicles, historical place etc. So we made this website. This website has also been online payment, so no any risk for money stolen.

V. ACKNOWLEDGMENT

We would like to extend our gratitude to our respected teacher – Mr. Vishal kansagara, for his constant support and for imparting us with the knowledge and helping us throughout the paper.

Learning and Teaching Scotland gratefully acknowledge this contribution to the National Qualifications support programme for Travel and Tourism.

VI. CONCLUSION AND FUTURE WORKS

This project is a fully functioning built on a single website. This project has important similarities and differences from other kinds of traditional. In day-to-day life we use for providing various services. One day a scientist get idea for this project which is use as stand for all other website as well as new features and modified service will also include. Work towards educating customers on the extent of website of Tourism and Travelling across user segments and governing bodies. Main advantage of this system is too many features include to only one website.
